

Intelligent Commissioning

Intelligent Commissioning

Commissioning using 'Intelligence'

- Know what you want
- Go out and get it
- Make it work

2010 Onwards Uncertainty

- Ring Fence – No more
- SP funding within the Area Based Grant
- Local and National Political Landscape
- Prospect of Public Spending Cuts
- Uncertain future for the commissioning of services providing Housing Related Support

Benefits Of Supporting People Funded Services

- DCLG commissioned Capgemini report July 2009 demonstrated the savings SP services have made on other parts of the LA Budget
- SP across Housing: Adult and Children's Services: Probation: Health
- Can demonstrate how services meet local and national priorities

Know What You Want

- Needs Analysis
- Know your market
- Are there other funding streams you can join up with
- Join up with other departments where you can
- Involve key colleagues in the commissioning to get their buy in and expertise

Go Out And Get It

Decide the best way to get it

- Jointly Commission
- Tendering
- Negotiating
- Framework Agreements
- Competitive Dialogue

Go Out And Get It

- How can we demonstrate value for money, not just in financial terms but also by the outcomes that the services deliver for service users and for the wider communities
- How can we demonstrate that the service meets not only our targets but those of other areas in the LA both at a local and at a national level

Outcome Based Commissioning

- Using a less prescriptive specification on activities and outputs
- Tender Schedule

| Activities | Outputs | Service User Outcomes | Outcome Indicators | Ways of Measuring |
|------------|---------|-----------------------|--------------------|-------------------|
| | | | | |

Make It Work

- Your procurement panel/ steering group becomes your implementation group.
- Monitoring
- Flexibility to refine the specification
- Work together to provide quality services
